Introduction and Background

As required by Texas Family Code, Subchapter B-1, Chapter 264, Section 264.172 (f), 88th Texas Legislature, the Office of Community-Based Care Transition (OCBCT) “shall report to the legislature at least once each calendar quarter regarding the implementation of Community-Based Care in the state.” Status reports shall be provided on September 30th, December 31st, March 31st, and June 30th of each year to the Texas Legislature.

Community-Based Care (CBC) is the Texas foster care model, which gives local communities the flexibility to leverage their strengths and local resources to find innovative ways to meet the unique needs of each child and family. Under a performance-based grant agreement, a single contractor provides services to children and families in their community (also known as “catchments” or “community areas”). The Single Source Continuum Contractor (SSCC) contracts have a term of five years (60-months) with an optional one-time five-year (60-month) renewal, whereby at the Department of Family and Protective Services’ (DFPS’) sole discretion, the SSCC contracts can be renewed for one additional 60-month term. Additionally, DFPS reserves the right to extend the contract as necessary to complete the mission of the procurement.

In Stage I, the SSCC is responsible for ensuring the full continuum of paid foster care placements and other services for children in the state’s legal conservatorship. SSCCs also support adoption recruitment, matching, and home studies. In Stage II, the SSCC expands services to include unverified relative or “kinship” placements, services to parents, and the SSCC has sole responsibility for the legal case management function. In Stage III, the SSCC continues the provision of all Stage I and II services and is awarded with financial incentives and assessed financial remedies for permanency outcomes, and additional performance measures for child safety and well-being. For information and data on the performance of SSCC contractors, see the [DFPS Rider 15 Report](#).

Update on Community-Based Care Expansion

In November 2025, 54% of children in DFPS conservatorship were being served by an SSCC

provider¹. Additionally, of the ten CBC catchment areas under contract, four SSCCs are in Stage III, three SSCC are in Stage II, one SSCC is in Stage I, and two SSCCs are in Stage I readiness as of this report; details of the progress specific to each catchment area are outlined later in this report.

DFPS will expand CBC into regions 7A, 7B, 11A, and 11B in the next biennium. Effective September 1, 2025, Senate Bill 513 (89th Texas Legislative Session) instructs the agency to collaborate with a lead agency to design a rural CBC pilot. DFPS and OCBCT will release Requests for Application (RFAs) for these upcoming areas.
