# Children Without Placement Data

Total Children Without Placement

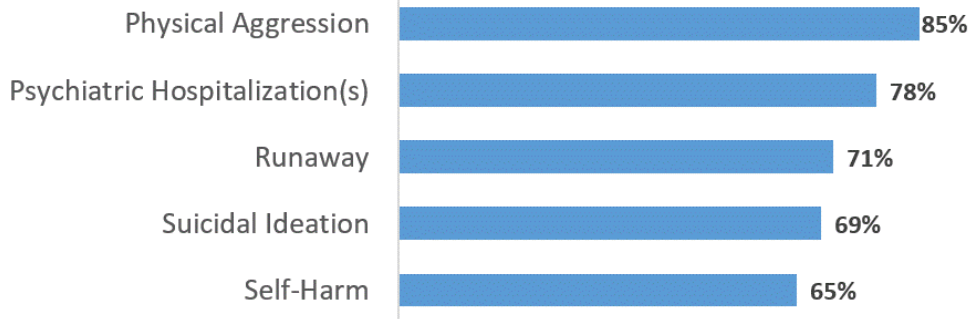

Definition: A child without placement event refers to when a child or youth was without placement for at least two consecutive, uninterrupted nights. If a youth goes missing during a child without placement event, the youth will be in a missing status rather than a child without placement event to ensure protocols are followed to ensure the safe return of a youth. If the youth returns from the missing event, a new event starts after at least two consecutive, uninterrupted nights.
