

PMET Performance Measures Questions

FY15 Supervised Independent Living Contract

This memo provides the Fiscal Year 2015 Supervised Independent Living Contract PMET Performance Measure questions.

For additional information regarding the PMET Performance Measures Questions, refer to the "RCC Contracts SIL FY15 Frequently Asked Questions" document that is a hyperlink located on the **Helpful Information Page**.

Outcome #1: Young Adults are able to live within their financial means.

Percent of Supervised Independent Living (SIL) participants who are able to pay all their bills and save at least 10% of their Gross Pay for three consecutive months.

- 1) How many Young Adults have participated in SIL for at least three calendar months, were able to pay all bills they were responsible for and, if working, were able to save at least 10% of their Gross Pay for any three consecutive calendar months which ended during the performance period?

Outcome #2: Young Adults exit Supervised Independent Living (SIL) into safe and affordable housing.

Percent of SIL participants who, at the time of exit, have housing costs which costs no more than 30% of their Gross Income.

- 2) How many of the Young Adults who exited SIL during the performance period moved into or remained in housing that costs no more than 30% of their Gross Income?

Outcome #3: Young Adults exit Supervised Independent Living (SIL) with connections to Caring Adults.

Percent of exiting SIL participants who have a documented connection to a Caring Adult.

- 3) How many of the Young Adults who exited SIL during the performance period had at least one documented connection to a Caring Adult who is not a staff person working with the Young Adult?

Output #1: Young Adult exit Supervised Independent Living (SIL) involved in full-time activities.

Percent of participants who, at the time of exiting SIL, are employed at least thirty-five (35) hours per week in a paid position; enrolled full-time in an Approved Education Program; or employed at least sixteen (16) hours per week in a paid position and enrolled at least half-time in an Approved Education Program.

- 4) How many of the Young Adults who exited SIL during the performance period were employed at least thirty-five (35) hours per week in a paid position; enrolled in full-time in an Approved Education Program based on the program definition of full-time enrollment; or employed at least sixteen (16) hours per week in a paid position and enrolled in an Approved Education Program at least one-half the requirement of the program definition of full-time enrollment?

Output #2: Young Adults Exit Supervised Independent Living (SIL) having met their education goal(s).

Percentage of participants who, at the time of exiting SIL, have met their stated educational goal(s).

- 5) How many of the Young Adults who exited SIL during the performance period met their stated education goal(s), as documented in their DFPS Plan of Service.

Comments:

- 6) If providing comment, please indicate the question number to which the comment refers. IF ANY OF YOUR NUMERIC RESPONSES ARE "0", YOU WILL NEED TO ENTER SOMETHING IN THE COMMENT FIELD. (Limit 3,988 characters, including spaces)
